WBL Plan and Evaluation Data Sheet

This Work-Based Learning plan and evaluation combines the identification of skill development learning objectives, academic enhancements and personal development goals with an assessment of the youth or young adult's work-readiness skills demonstrated through the experience. The assessment gauges progress towards readiness for a successful transition into the world of work. It reflects important skills, attitudes, and values that are essential for success in the workplace.

Enter information about the participating youth or young adult, the referring Learn & Earn Program staff, the worksite supervisor, and details about the Work- Based Learning experience.
